# These are some advantages of working with us:

By being part of Cyclical, you contribute to a positive environmental impact.

Get our product just in time to capitalize on your market opportunities.

Experience technology, innovation, and versatility of use in all our filaments.

Ensure your supply and availability in case of any eventuality.

**T-MEC**

Expand markets in North America thanks to regional tariff advantages.

# We have a strategic geographic location.

We take advantage of nearshoring benefits such as:

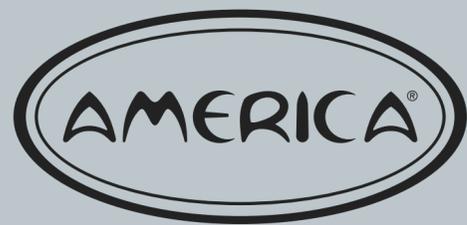

- ▶ Service availability aligned with North American time zones.
- ▶ Trade preferences due to free trade agreements.
- ▶ Proximity to meet regional requirements.

# We are proud to highlight our plant's GRS certification due to:

- ▶ The implementation of technology that contributes to energy efficiency.
- ▶ Cogeneration as the most efficient way to provide energy to the production plant.
- ▶ Our production of 100% recycled products, which positively impacts the reduction of carbon footprint compared to other plants.
- ▶ Full compliance with legal requirements in environmental matters, certified as a clean industry.

# SkyYarn Partners

chico's

Our goal **is to be your trusted** ally for each of our polyester filaments, exactly when you need them.

Find cutting-edge technology, versatility, and **sustainability** in all our polyester filaments.

Be one of the  
companies that join  
our textile evolution  
with a social focus.
